Oral Health Services
for People with HIV

What are Oral Health Services?

Oral Health Services is a program that helps people living with HIV (PLWH) access free dental services as part of the Ryan White Program. These services will be provided by dental professionals who have experience serving PLWH.

What are the goals of the Oral Health Services program?

- Promote dental health
- Improve quality of life among PWH
- Provide reliable dental health services

What services can I access through the Oral Health Services program?

General Dentistry: Regular dental checkups, X-rays, cleanings, fillings, and access to any necessary and related medication, treatment, or referrals to specialty dentistry services.

Specialty Dentistry Services: Additional procedures such as crowns, dentures, implants, and dental surgery. These services are to help you improve your dental health and function.
