

PrEP YOUR FRONT DESK STAFF

Every member of your team, including front desk staff, should know that **PrEP** exists and is offered by your clinic. Here are a few quick facts about **PrEP**:

- **PrEP** stands for Pre-Exposure Prophylaxis (PrEP). The word "prophylaxis" means to take an action to prevent the spread of a disease.
- **PrEP** is a way for people who don't have HIV to stay HIV negative by taking a pill every day.
- **PrEP** has been shown to reduce the risk of HIV infection by **up to 99%** when taken every day as prescribed.
- **PrEP** is for people who are HIV-negative, have a high risk of being exposed to HIV through sex or drug injection, and are ready to take a daily pill.
- **PrEP** is covered by most health insurance plans, including Medi-Cal and Medicare.
