

Welcome – Dr. Gary Tsai; DPH-SAPC Director

- **SAPC’s Partnership with our Provider Network**
- **Theme of the next few years: CHANGE**
- **Key legislation impacting the SUD community:**
 - **Senate Bill (SB) 43** (expansion of grave disability to include SUDs [involuntary care])
 - **SB 326** (“MHSA Modernization”)

Residential Re-Authorizations for Patients Experiencing Homelessness

- DPH-SAPC supports continued residential stay when providers need additional time to secure a housing plan for patients experiencing homelessness.
- Patients completing residential treatment should have a plan for where they will reside after discharge
 - Options include (but not limited to): Recovery Bridge Housing (RBH), LA's housing system, living with relatives or other available social supports, etc.
- Providers should start planning for patient living situations at the beginning of their residential admission.
