- PCNX Patient Handbook e-signature acknowledgment feature
- Next meeting: January 2024 (TBD)
- E-mail Armen Ter-Barsegyan Ater-barsegyan@ph.lacounty.gov to join workgroup

KEY INDICATORS WORKGROUP UPDATE

Jonathan Higgins, Beacon House

Christina González, Impact

Substance Abuse Prevention and Control
County of Los Angeles Department of Public Health

Key Indicators Workgroup Meeting

- 10/30 Meeting Updates
- Workgroup completed Outcome of Success Metrics survey (n = 10)

Q1 What term does your organization define an individual participating in treatment as?

Answered: 10 Skipped: 0

Q2 Does your organization have a "data dictionary"? (Do you have set criteria for each term you use: ie- completion= patient who completes a certain amount of days and has a specific discharge type)

Answered: 10 Skipped: 0

Q3 What do you consider a treatment completion for a patient?

Answered: 10 Skipped: 0

#	RESPONSES
1	once they complete their goals and days/time agreed
2	At our organization, we talk about "fulfilling the mission statement", with fulfilling the mission statement being that an individual successfully moves through all of the levels of care at the agency, has completed "long term" treatment (typically 2-4 years), has completed their education, obtained gainful employment, developed coping skills and emotion regulation skills, and is equipped to reintegrate into society independently of a treatment organization or structured institution.
3	A participant who has met their goals for treatment and have sustained some level of abstinence.
4	Treatment Completion is if they have completed at least 4 months of treatment and met their tx plan goals. Positive Discharge- treatment completion, transfer to appropriate level of care, medical discharge, psychological discharge.
5	We have minimum criteria for successful completion for each LOC
6	An treatment episode which concludes at a planned date when client and staff agree it makes sense given client's goals, strengths, resources, and challenges.
7	Use criteria established by funder; CalOMS; SAMHSA, etc.
8	Per client's needs and wishes.
9	progress on goals, does not leave AMA
10	Meeting treatment goals

Q4 What are areas of celebration in your organization? (ie- keeping beds full, completing a certain amount of days, getting a sponsor, building relationships with support group)

Answered: 10 Skipped: 0

#	RESPONSES
1	All- Success stories, full beds, active participation in other programs and aftercare
2	Making the choice to commit to long-term treatment (as opposed to simply completing residential treatment and transferring out after ~90 days) Completing the 12 steps Making 9th step amends to family members and reunifying with family Starting school Getting a job Purchasing a car
3	Completing certain groups, getting custody of their children, closing DCFS case, closing probation case, etc.
4	days of clean time/sobriety, established a sponsor and fellowship support network, completed a certain amount of days in treatment, graduating highschool or receiving a ged, completing anger management, parenting and relapse prevention courses
5	successful completion
6	Client engagement with services or other external sources of support (family, social support groups etc.) new client employment, new client access to housing or housing stability, reduction of substance use, successful linkage to another level of SUD care, successful linkage to medical or mental health services, new access or consistency in utilizing MAT, de-escalation from crisis states. Client satisfaction with services. Staff meeting their billing goals/keeping caseloads full, starting new partnerships with other organizations in the community, intra-agency collaboration between substance use program staff and other departments, resource fair-type events generating engagement with members of the public.
7	Occupancy rates; LOS; TC; achievement of treatment goals/objectives, time from referral to intake/admission, etc.
8	Client's successes.
9	getting a sponsor, transitioning to IOP, doing RBH, connect with family, going to school or working.
10	Meeting goals, stepping down to RSS

Q5 Is your organization currently collecting any data related to success?

Answered: 10 Skipped: 0

ANSWER CHOICES	RESPONSES	
Yes	90.00%	9
No	10.00%	1
TOTAL		10

Q6 In an ideal world, which metrics would you desire your organization to be measured by to demonstrate success (ie-completion rate, transfer rate, referral rate, individual goals met rate)?

Answered: 10 Skipped: 0

#	RESPONSES
1	Completion rate, transfer rate to other programs, and length of sobriety
2	% of clients admitted that are achieving long-term sobriety/abstinence from substances (>1 year) % of clients that graduate primary phase of program that are still sober 1, 2, 3, 4, 5, years later change in earning potential (before treatment vs after treatment) change in employment status change in level of education change in self-reported feelings of depression, anxiety, purpose, etc.
3	Maybe all that were mentioned here
4	patient treatment completion, transfer to appropriate level of care, returning to treatment as a positive outcome
5	Sobriety after 30 days 6mos 1 year
6	Completion, transfer, referral, individual goals met, are some useful milestones, but hopefully these will be monitored alongside other things as well, including metrics associated with the areas of celebration noted in question #4.
7	The value based metric should probably be based on a combination of a) patient satisfaction; b) positive patient treatment outcomes; c) overall reduced cost for services/system of care.
8	Client sharing improved quality of life, feeling happier and more secure. Abstinent based recovery. Celebrate time per client description.
9	hummm great question. I think the transfer rate is important, and I think allowing the clinician and the patient to determine patient-specific success would be worth exploring.
10	Completion rate, RSS rate, % of people who are sober, % of goals being met, recovery capital

Key Indicators Workgroup Meeting

- Next meeting date: 12/18/23 | 3pm – 5pm
- E-mail Armen Ter-Barsegyan Ater-barsegyan@ph.lacounty.gov to join workgroup

BUILDING COMMUNITIES OF BELONGING (FORMERLY "CLAS")
