

Coalition to End Tuberculosis (TB) in Los Angeles County

WORLD TB DAY
MARCH 24

→ **END
TB**

By the end of the Coalition, participants will have...

- Learned about the impact of TB in LAC and strategies underway toward eliminating TB in California
- Affirmed their commitment to join the Coalition to End TB in Los Angeles
- Discussed past and present World TB Day activities
- Established networking opportunities
- Shared TB related announcements and updates
- Identified next steps

Ground Rules

- Contribute ideas and participate
- Stay on task
- Listen
- Respect Others
- Right to disagree but not offensively
- Begin and end on time
- Turn cell phones on vibrate
- Announcements at the end of meeting

Vision -

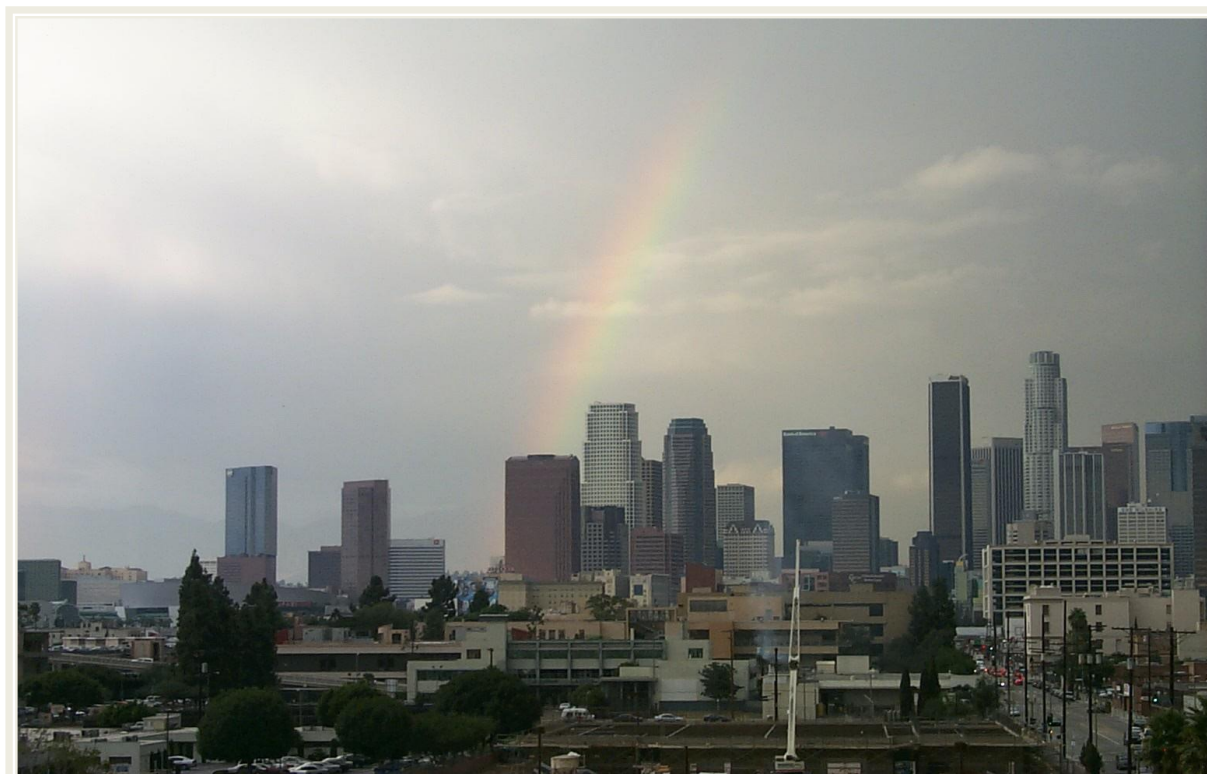

Tuberculosis
eliminated in
Los Angeles
County.

Los Angeles County Department of Public Health

Tuberculosis Control Program

Mission –

To prevent the
transmission of
Tuberculosis in
Los Angeles
County

TB Program Priorities

1. Identify and ensure that active cases of TB disease are treated
2. Ensure that contacts to active cases of TB disease are identified and treated
3. Targeted testing and treatment of high-risk populations for TB infection

TB Control Program Services

- TB surveillance
- Consultation for treating providers
- Analysis and reporting of data
- Policy development
- Education for patients, health care providers, and community
- Disease Control and Case Management Oversight

MOU NUMBER _____

COUNTY OF LOS ANGELES - DEPARTMENT OF PUBLIC HEALTH
MEMORANDUM OF UNDERSTANDING

BETWEEN

COUNTY OF LOS ANGELES - DEPARTMENT OF PUBLIC HEALTH
AND
CENTRAL CITY COMMUNITY HEALTH CENTER

PREFACE

This Memorandum of Understanding ("MOU") is entered into this _____ day of _____, 2014, by and between the County of Los Angeles Department of Public Health (hereafter referred to as "DPH") and Central City Community Health Center (hereafter referred to as "Central City CHC") for the purpose of collaborating in tuberculosis (TB) prevention and control measures. The primary focus for the purpose of this MOU will be the Area Health Officer for the respective Service Planning Area (SPA).

Background: There is a continuing outbreak investigation of TB within the homeless community concentrated in the Los Angeles County Metro area. In the past, as part of the efforts to control transmission of TB among the homeless, local shelter and rehabilitation programs have cooperated with DPH on recommendations to screen resident clients for TB. With the determination of continued transmission for the current outbreak, DPH now recommends that ALL homeless clients in Los Angeles County be screened initially for TB disease. To facilitate this screening and to assist DPH in examining asymptomatic homeless clients and their contacts, clinic providers servicing this population are needed to conduct screening for TB.

I. TERM OF MOU

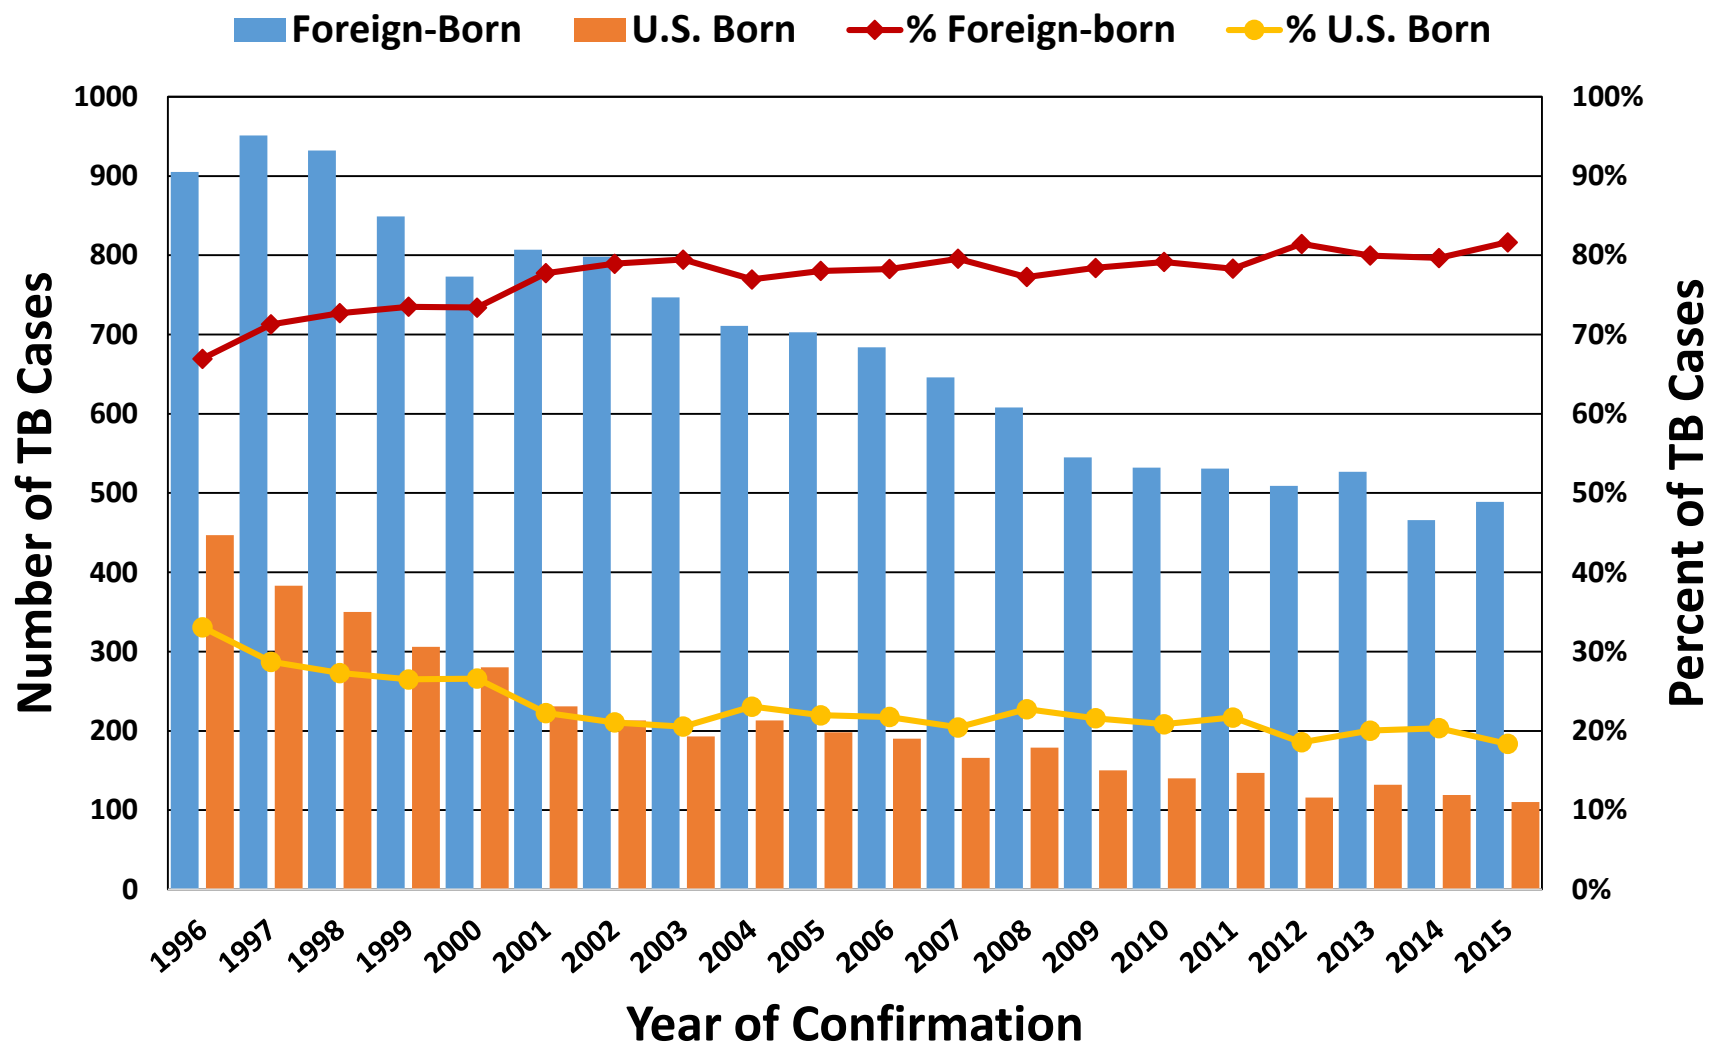

This MOU will be effective upon the date written above and shall continue through December 31, 2014, and will automatically renew annually for three (3) additional years without further action. This MOU shall terminate on December 31, 2017, or sooner if it is terminated according to Section II, "Termination".

II. TERMINATION

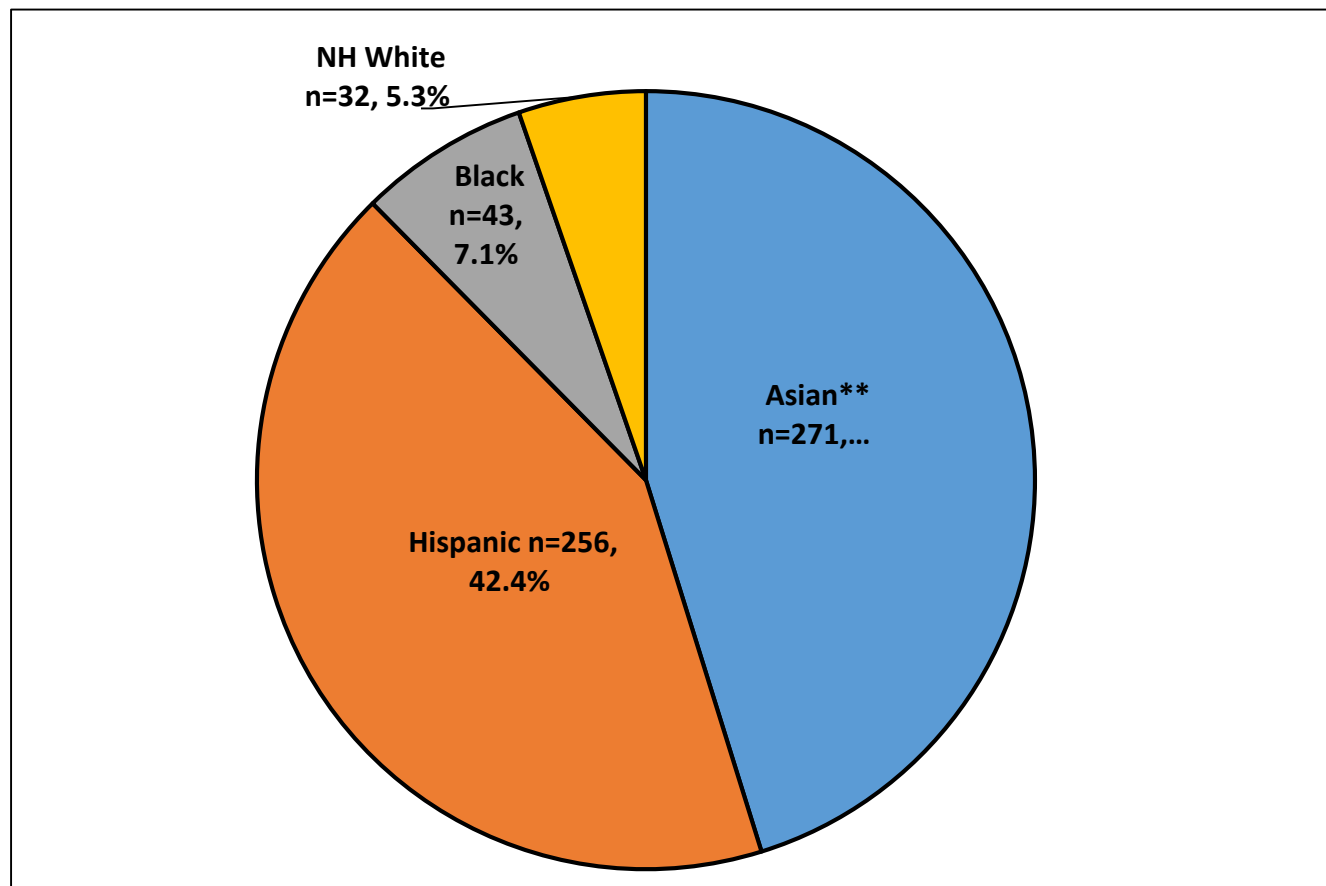

Either party of this MOU may cancel or terminate the MOU at any time, with or without cause, upon giving at least thirty (30) calendar days advance written notice to the other party. Any written notice of termination shall state the date that termination shall become effective. Further, DPH may also suspend the performance of its obligations under the MOU, in whole or in part, upon giving of at least ten (10) calendar days written notice to the other party. Both parties agree to meet in good faith to accept any necessary changes in the provisions of the MOU.

U.S. and Foreign-Born TB Cases: LAC 1996-2015

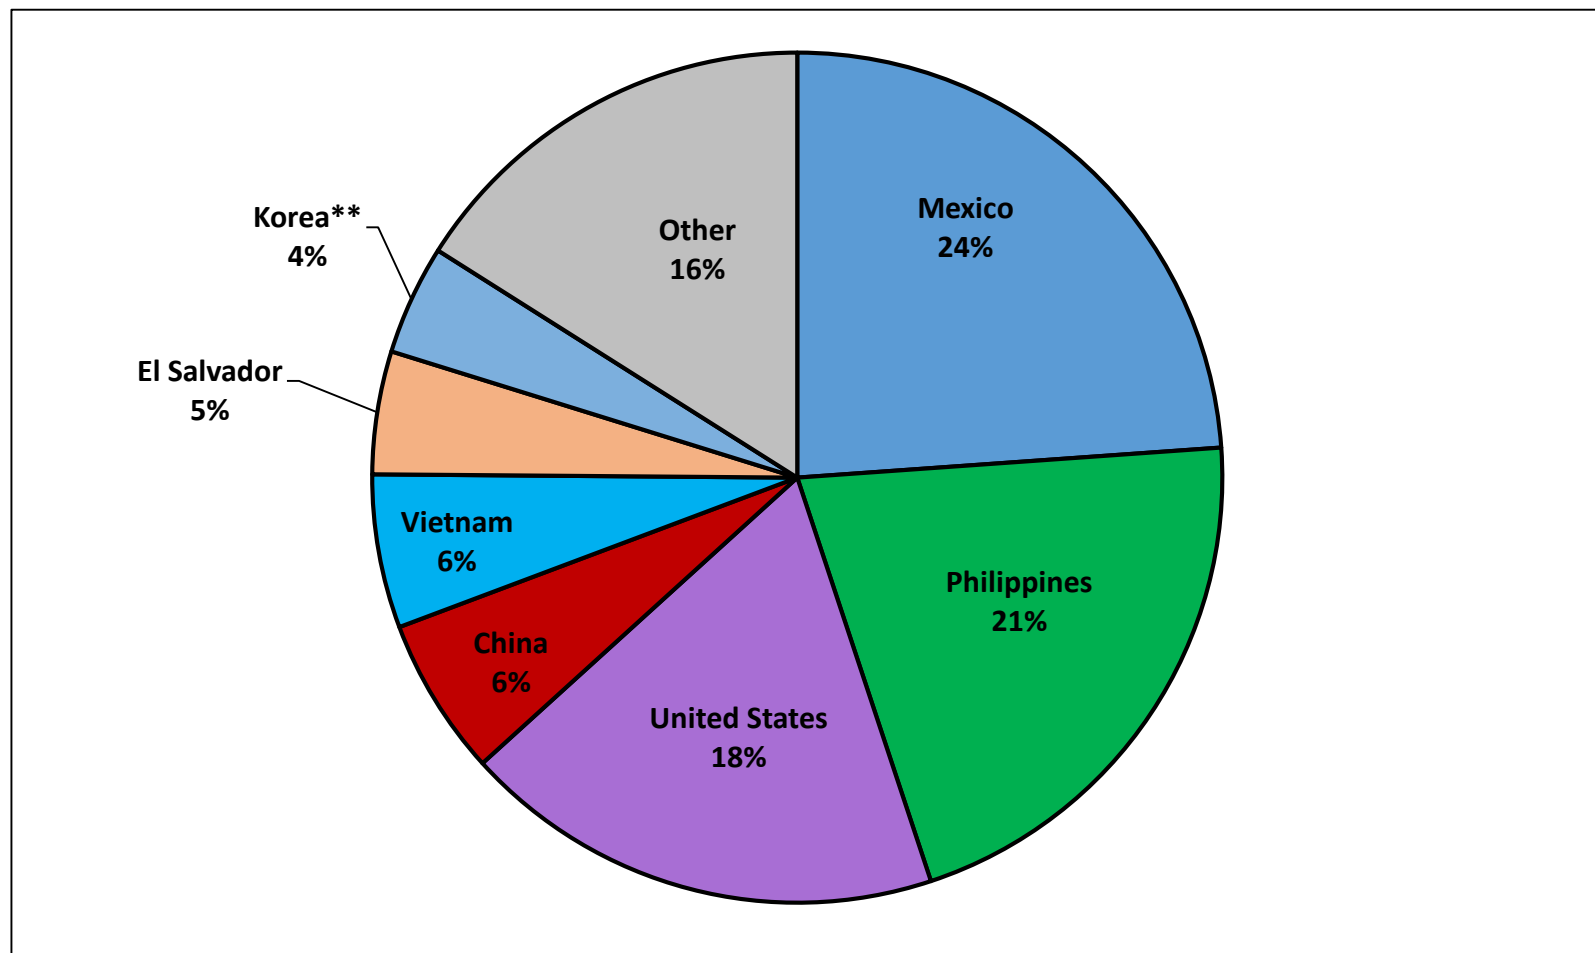

TB Cases by Race/Ethnicity*: LAC 2015

Data exclude Pasadena and Long Beach TB cases. Based on TRIMS data, updated 01/10/17. Data are provisional and subject to change.

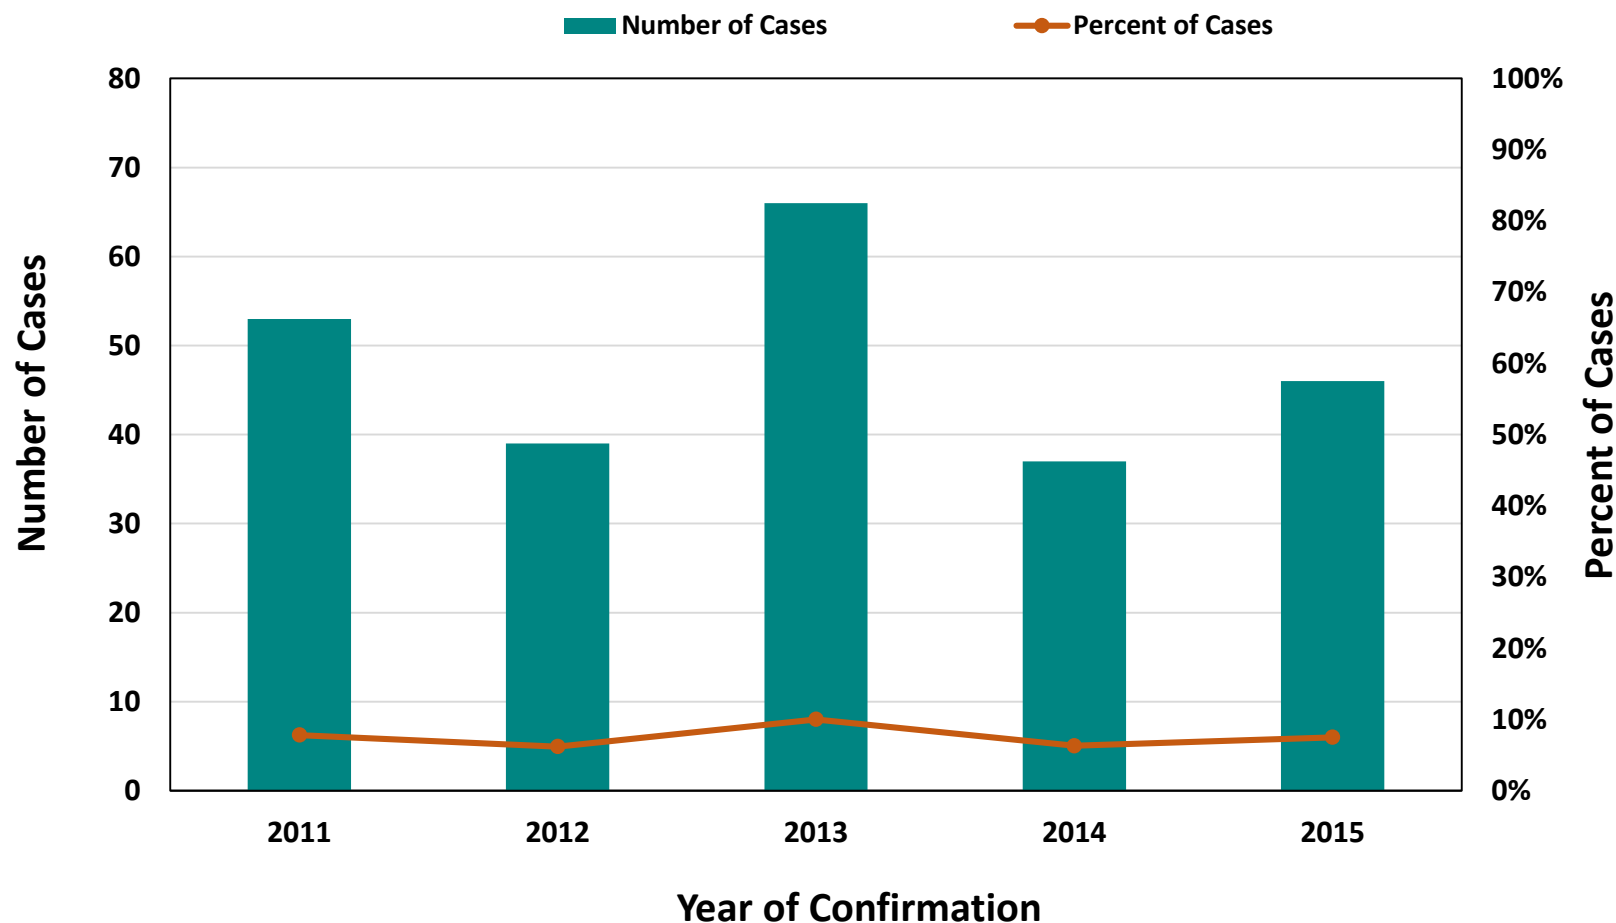

*NHW=non-Hispanic White; Asian category includes Pacific Islander.

Past to Present World TB Day

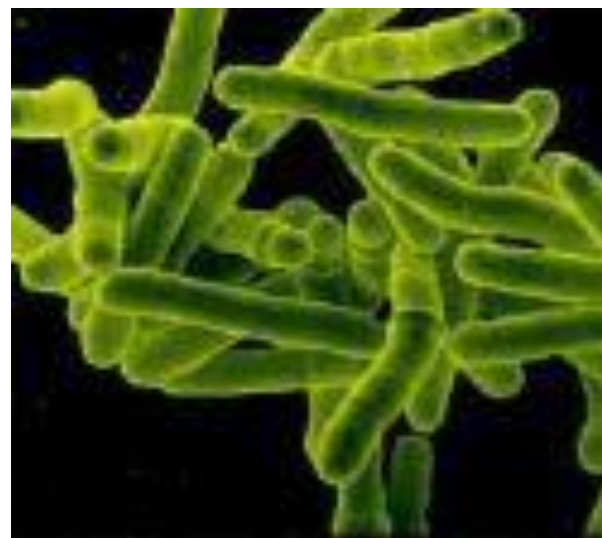

World TB Day

- When is World TB Day?
- What is the purpose for World TB Day?
- What does it commemorate?

March 24th

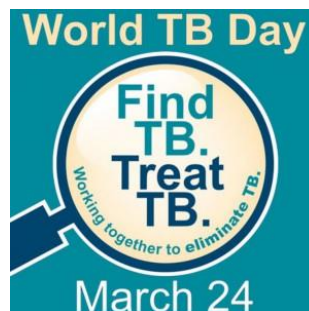

Awarded Nobel Prize in Medicine in 1905

5 – Year World TB Day Themes

- Unite to End TB (2017, 2016)
- Find TB. Treat TB. Working together to eliminate TB (2015)
- Reach the 3 million (2014)
- Eliminate TB in My Lifetime (2012, 2013)

UNITE TO
→ **END**
TB

What is the purpose for World TB Day?

- To raise awareness among political leaders, decision-makers, and opinion leaders around the world about the social, economic, and public health implications of TB
- To increase resources for the fight to stop TB
- To mobilize TB patients and vulnerable groups to demand greater access to treatment
- To emphasize the link between TB and poverty
- To showcase the work of local TB Control Programs around the world
